

# PROSPER

## New white pea variety

- ➔ New spring protein pea
- ➔ Good yield potential: 106.5% in NL trial Poland
- ➔ 1/2 early variety
- ➔ Small TKW
- ➔ Good protein content
- ➔ Good lodging resistance

<b>Origin</b>	Odeon * Kayanne
<b>Breeder code</b>	LD 0815

### CHARACTERISTICS

<b>Grain color:</b> Yellow
<b>Earliness at flowering :</b> 1/2 early
<b>Earliness at maturity :</b> 1/2 early
<b>Height end of flowering :</b> Rather tall
<b>Height at maturity:</b> Rather tall
<b>Lodging resistance:</b> Low sensitive
<b>TKW:</b> Rather low
<b>Protein content:</b> Rather high

- Very good yield potential
- Lodging resistance
- Protein content
